August 2025

As summer winds down and a new school year begins, it is the perfect time to check in with yourself and your community. Back-to-school season can bring excitement, stress, and everything in between, so this month we are focusing on how to practice mindfulness as you transition into new routines, classes, and challenges. Whether you are stepping into high school for the first time or heading into your final year, let's take on this school year together with compassion, courage, and care.

How Are You #Working2BeWell

Reminder: Use education as a way to empower yourself. Learning about mental health doesn't just help you, it gives you the knowledge to challenge stigma, speak up for others, and spark change in your community. Whether it is through a podcast, a workshop, or a conversation, every bit of knowledge is a step toward a healthier, more informed community and world.

W2BW Mindfulness Module

The term "mindfulness" can mean different things to different people. This is because it depends on how someone is looking at it. In this module, students will examine the differences between being "mindless" and "mindful," exploring the consequences of mindlessness, and discovering ways in which they can be more mindful in their everyday lives.

Partnership Update

Erika's Lighthouse and Work2BeWell have much in common! Both organizations' missions are centered in destigmatizing mental health amongst teens and cultivating student leaders. Through student-led clubs and community projects, we are giving teens the tools and support to speak up, support one another, and create positive change in their schools and neighborhoods. By working together, we are able to build a strong network of young people who care about mental health and are ready to lead the way in making it a normal, open part of everyday conversation.
